MANY thanks to the Match & Handicap team including all the Captains, for all the behind the scenes logistics - it was a juggling act from start to finish to coordinate golfers and timing so that the gallery was able to witness all the final groupings on the final day. And what a show it was!

Please see the attached press release, put together by our Director of Communications, Chris Jackson, about the newly crowned Men's Club Champion, Mark McLeod. Mark's record-breaking achievements make this year's Mixed Club Championship a historical event, which is so fitting during a year that we celebrate our history. The press release will be included in an upcoming communication by Golf Quebec in early September. Congratulations Mark!

Of course, thanks as always as well as to our seasoned scorekeepers, bar volunteers, 1st tee marshals and starters for all their contributions to this fan favorite tournament.

## **REMINDERS**

### **[Parkes Culross tournament](#) - Saturday, September 3rd 10AM (shotgun)**

Sign up for the last individual net and gross tournament of the season. There is also a longest drive and closest to the pin competition.

### **Five Lakes tournament - Sunday, September 4th (on own time - book your own tee time)**

Declare your round to the starter as part of this tournament before you head out on Sunday so that yours will be counted toward this team event. Lowest four net scores could win it for their lake!

As the season comes to a close, it's important to remember that all scores are to be entered into Golf Canada Score Centre; Club Championship participants are asked to enter their own scores

from all CC rounds. **\*please note that anyone hoping to play in the Parkes Culross and Five Lakes must have their club championship scores entered in order to participate. You can access all the scoreboards from the fixture card.**

This week is the last week to enter Ringers. Competition closes Friday, September 2nd. See everyone at **Prizegiving** this Saturday, September 3rd!

Entering Ringers

You can enter your ringers electronically via this link: [Ringers](#). We have also posted a hard copy at the starter shack to motivate you to enter your ringers right after your golf game. We will be collating all scores from both the electronic and hard copy at the end of the season. Friendly reminder to make sure you are playing with another player or a walker.
