Greens Committee

You asked for it in the Membership Satisfaction Survey, so we are in the process of adding new sand to the traps. Please be mindful of the ones marked Ground Under Repair (GUR).

The adverse spring weather and warm temperatures has delayed the appearance of the Japanese beetles this year. We will be putting beetle traps up as soon as we see signs of them and will time our beetle spraying to coincide with

notable activity.

Fortunately, the turkeys have mostly stopped digging out sections of the course to eat the grubs, except for some ongoing activity on the 9th hole. Once we have had a chance to spray that area (hopefully within the next week), the crew will go and repair the damage. Until then, please treat these areas as ground under repair.

Please remember to replace your divots, repair your ball marks and rake traps after you to ensure the course stays in optimal playing shape.

Volunteer Spotlight

This week we shine the DCC Volunteer Spotlight on members **Maryse and Robert Percy**.

Maryse and Rob generously purchased three new heavy-duty picnic tables and donated them to the Club — now we have even more seating around the pavilion for our gatherings! And our crack grounds crew now have a decent place to eat lunch in the maintenance area. As if their generous gift were not enough, Rob fetched them from the south shore of Montreal and placed them at the Club using his big blue tractor. Thanks, Percys! Good show!
